EDITORIAL

"30"

Death has again passed a shadow over the journalistic world of the west as thousands of residents of Victoria and other parts, for B. C. ("Benny") Nicholas, Editor of the Victoria Daily Times, passed away suddenly on Monday afternoon while at work at his desk. He succumbed to a heart attack.

"Benny," as he was affectionately known to the press of the province, as well as many others, was one of Canada's most brilliant journalists, an eloquent speaker, a keen student of national and international affairs, and above all a philanthropist.

A CHANGE OF MASTERS

(An Editorial taken from The Western Producer, Saskatoon)

The engineer, not the financier, will be the master of the modern world, predicted Henry Ford, the automobile king, the other day, and there are other straws in the wind which indicate a prevailing tendency to shift the economic centre of gravity from the desk to the machine shop.

The president of General Motors Research Corporation struck the same note when he said recently:

We have got to get away from the lowly development of new industries on the basis of profit and loss; the basis of return on capital. We have got to think of it as the development of something in which faith, in which the rightness of the thing, becomes the important factor.

The close connection between social progress and technological advance was Mr. Kettering's theme song, so to speak, and he was voicing the engineering rather than the financing aims of that monster corporation when he insisted upon the fact that usefulness to man rather than the piling up of reserves, was the object of his research.

"Where is the money to come from?" used to be a complete answer to every advocate of better and fuller lives for the majority of our people. Where does the money come from for the ships like the "Queen Mary" and for the huge expenditure on arms, battleships and military projects, for the proposed naval base at Singapore? There is no difficulty about the money for these, as Chancellor of the Exchequer assured the British House of Commons. Nor is there any difficulty about the money for any project that is humanly and physically possible. We have the hands, we have the material and we have the brains. These are the only real requirements. Financial restrictions are mere figments of the financier's brain—figments which he has been able to turn into appalling and paralyzing boogies for the rest of us.

Slowly this realization is seeping into the general consciousness. We find it appearing today in places where a generation ago it would have been an impossible anomaly. On the throne, yes, and in the pages of such august organs of the ruling class as The Times and The Observer. Here are the comments of J. L. Garvin on "The Great Challenge":

"On the one hand a manifestation of human faculty and power that holds all nature in fee; on the other a degradation of human existence beyond the barest possibilities of comfort or self-respect. The continuance of this contrast is the key to more than half the unrest of the world. Its denial of social well-being as a standard of organized life becomes a louder challenge with every day. . . .

"The great creative engine of modern industry must be given direct application to this problem of raising the common lot. The political mind must be awakened to its moral imperatives. The boldness measures of current statesmanship only nibble at the deficit that separates us nationally from a good life."

J. J. White Challenge Trophy

Here is a photo of the beautiful J. J. White Challenge Trophy, donated by Newman Mumford, Deep Cove, in honor of our much-respected citizen, Mr. White. This trophy will be awarded to the school making the most points in the foot races and jumping. All schools in the Saanich Peninsula and Gulf Islands are entitled to compete. Entries are free and schools are urged to get in touch with Mrs. Thomas if they are interested. Above photo is only one-quarter size of trophy.

Editor's Note:—We have received many enquiries regarding the above challenge trophy, asking how it can be in existence when it was destroyed in the North Saanich School fire. The trophy was insured and an identical new trophy has now arrived from the factory.

BIG CELEBRATION AT SIDNEY

ARTILLERYMEN TO GATHER AT VICTORIA, 30TH

To celebrate the twentieth anniversary of their departure for service overseas, members of the 15th Brigade C.F.A. Association will hold a banquet in the Douglas Hotel on Saturday evening, May 30, commencing at 7 o'clock.

About 125 former artillerymen are expected to attend the gathering which will be under the chairmanship of Percy Gilson, president. Ship of Cruickshanks is secretary. Members of the unit will be there from Vancouver, Nanaimo, Duncan, Sidney, Salt Spring Island, and other points.

The unit left here on May 26, 1916, under the late Lieut.-Col. A. T. Ogilvie. It spent several months under canvas at Petawawa, Ont., and then proceeded to England where the batteries were changed from four to six guns. This necessitated a reduction in the number of brigades and the 15th Brigade became the 14th Brigade.

All members of the unit are asked to get in touch with Mr. Cruickshanks at telephone Empire 8612, or with Mr. Gilson, Scott Mason, Ted King or Archie Scott.

A good program is being arranged and the old artillerymen are looking forward to the best reunion they have had since their return from overseas.

SECOND FERRY TO ANACORTES STARTS JUNE 13

ELGAR CHOIR TO ELECT OFFICERS

The final meeting of the season for the Elgar Choir will be held on Tuesday evening next in the Sidney School at 8 p.m., when the election of officers for the coming year will take place as well as the regular practice.

A full turnout is sought so that business matters may be brought to a satisfactory close.

South Saanich has many beautiful sites for homes.

Birthday Celebration

In honor of J. T. Readings, who celebrated his 81st birthday last week, members of the family gathered at the Readings home, Bazan Bay Road, to offer congratulations and good wishes. Refreshments were served and a very enjoyable evening spent.

FIRE BRIGADE REORGANIZED

Monday evening, May 18th, saw the reorganization of the fire brigade take place, held in the office of the mill building.

In order that the brigade get away to a clear start in the new method of the members electing their own officers, the chief and assistant chief resigned.

Everett Goddard, chairman of the fire protection committee, acted as chairman and the other two members of his committee, W. N. Copeland and F. N. Wright were also present. The fire protection committee took no part in the voting, this being left entirely to members of the fire brigade.

Albert Critchley, Frank Hunt and Freeman King were nominated for chief, Mr. Critchley being elected by a large majority.

For assistant chief "Lefty" Morgan, Freeman King, Frank Hunt, Bob Shade and Ben Readings were nominated, and an indecisive vote resulted. Morgan, Shade and King were then voted on, Morgan being elected.

Voting was by ballot. Then followed a meeting of District No. 1, when it was decided to elect three captains in order to cover this populous area. The captains elected are Bob Shade, Stewart Hill and Henry Giese. Each captain now will select two lieutenants to work with him.

Districts 2, 3, 4, 5, 6, 7, 8 and 9 will carry on as is until each unit holds its own meeting and elects its own captain, who in turn will choose two lieutenants.

Freeman King has volunteered to look after the first aid kit on the fire truck and to organize a first aid unit that will respond to fire calls.

FIRE QUICKLY EXTINGUISHED

Tuesday about 12 noon citizens of Sidney were startled by a blast on the fire whistle, and the appearance of a dense cloud of smoke rising from the centre of town.

The cause of the alarm was occasioned when fire broke out in the yard of the Public Works department where tar was being heated for road repair work.

A sudden explosion added to the excitement after the blaze was discovered and the alarm turned in.

The fire brigade responded immediately with both trucks and soon had the fierce blaze under control. Hundred of citizens arrived from all directions and crowded about, in some cases too close to be safe. It would materially assist the fire brigade if the public would not rush into the quarters at a fire.

PLANS GOING AHEAD FOR SAANICH FAIR

Five new members of the Lady directorate of the North and South Saanich Agricultural Society were welcomed by Mrs. F. Turgoose and Mrs. R. E. Nimmo, joint conveners, at a meeting held last Wednesday afternoon in the Saanich Pioneer Log Cabin, Saanich, Mrs. R. E. Nimmo presiding.

The various women's work sections to be included in the prize list for the 68th Annual Fair on Sept. 8th and 9th were revised and additional classes in some of the sections were added.

It was decided that the ladies of the society would attend to the catering under the convenship of Mrs. D. Lawson, and Mrs. Deacon will again take charge of the outside coffee stand.

It was recommended by the meeting that the annual dance of the society be held on the second Friday after the fair.

In view of the fact that the number to be entered to, etc., was at each fair increasing, it was necessary to facilitate the carrying out of the duties as much as possible. Several suggestions were advanced and discussed.

A well attended meeting of the gentlemen directors was held in the evening under the chairmanship of H. E. Tanner, president.

The various livestock sections, etc., to be included in the prize list were revised, on the recommendation of the various conveners and committees. The dog show classes were increased and the sheep dog trials will again be a feature of the fair. Highland dancing events committee made several minor changes in program.

OUTSTANDING ARTISTS TO BE HEARD ON MAY 22

Featuring a lengthy list of talented artists, Friday evening's presentation at the Agricultural Hall, Saanich, will be one of outstanding quality, as all will agree when it is learned that the program is to be presented by the End Cole Players. A selective group of finished artists is not often heard throughout an entire evening, but this troupe of 22 will be seen and heard in two hours of lively and wholesome entertainment. Presenting songs, stories, music, sketches, tap dancing, chorus dances, and a one-act comedy, a real treat will be missed by all who are not present for this event.

One of the entertainers will be little four-year-old, Sylvia Welsh in boy characterizations, and others will be Miss Ethel Gillis, popular tap dancer, and Don Blake, baritone and comic vocal winner.

Tickets are being sold by members of Mount Newton Lodge, this

entertainment coming to the district under the auspices of the lodge social committee. Prices may be learned by turning to the Coming Events column, and anyone wishing transportation is invited to get in touch with Sam Roberts.

There will, of course, be the usual booths of ice cream, soft drinks, refreshments, etc., and coconut shies.

The children's foot races and jumping, as well as the various dancing contests, plays, etc., will be staged immediately in front of the grandstand—everyone in the grandstand will have a perfect view—a ringside seat, as it were.

THE MARKETING ACT

Sir:—Once again the opportunity has arrived to elect members to the B.C. Sheepbreeders' Marketing Board. Some remarks on this subject therefore should not be out of place.

Workers in practical every other industry except farming have fought for such privileges as, an eight-hour day and reasonable wages.

Realising that farmers, in the majority of cases, are their own employers, and having also in mind the depressed conditions prevailing in this industry, the Dominion and Provincial Governments passed "Marketing Acts" to enable farmers to adopt measures to improve their position.

"The Marketing Act" confers upon farmers practically the same charter as the "B.N.A. Act" conferred upon Canada: the right to govern themselves in a constitutional way.

Sheep owners now have to choose for themselves: whether they keep some lousy, underfed ewes and more or less scrub rams, wandering round the farm untended and producing comparatively few half-finished lambs for a quite uninterested public.

Or whether they prefer to keep a good looking flock, with good pedigree rams, properly attended, so as to produce 175 percent well-finished lambs to sell to an appreciative public at a price profitable to the farmer.

If sheepmen choose the former they save work, make little profit and their farms deteriorate rapidly. The latter alternative means a little work, steady remunerative profit, and improved fertile land for other crops.

Everyone, worthy of the name of farmer, will choose the latter course and it is his duty to elect and support a strong "Marketing Board" to enable him to carry out this program.

The Board should have no difficulty in finding a remedy for the present unprofitable state of the sheep industry. Firstly, the Board should take immediate measures to prevent unfinished carcasses being put on the market. Secondly the Board should make arrangements to export any carcasses surplus to B.C. requirements.

The present price of lamb on Smithfield Market is 30c per lb. (dressed) and the few thousand carcasses that could be exported from B.C. would not make the slightest impression on a market which handles ten million or more carcasses annually.

R. A. INGRAM.

Galiano, B.C.

FAIR TAX ON FARMED LAND

Sir:—A number of farmers have decided that it is necessary to hold a series of meetings on Gulf Islands and elsewhere to formulate a demand for a fair system of taxing farmed land. The present system takes no notice whatever of the income from the farm. The tax collectors make a wild guess at what they think a farm might be sold for and then tax the supposed sale value. This system of taxation was invented for the purpose of robbing landowning farmers. There never was any other reason for it. The proper thing to do is to tax the net income. If there is no income let there be no tax. The usual reason, apart from accident, for no income from a farm is because the market price of farm produce is below cost of production. The land all through the English-speaking world has been let down, it has largely lost its fertility. The reason is because the farmers have been unable to get enough money to keep their farms in good order. In the U.S.A. some four hundred million acres have been completely ruined and can never be farmed again. In Canada, even in the newer provinces, a terrible destruction of fertility has taken place. Even in this district much farm land has been ruined. Unless a famine is desired we must find some way to stop this destruction. We must have full costs of production and a better system of farming our land.

It is of course a fact that our city people show no sign of alarm, but because they are a collection of consummate asses is no reason why we farmers should also be fools. We must try to save our own skins anyhow. An income tax on land will stop unfair taxation of land. It would also have the effect of teaching farmers what the true cost of production amounts to.

When filling his income tax paper the farmer will have to make allowances for wear and tear of machinery and building, drains, fences, loss of fertility, etc., as well as cost of seeds, manure, etc. He must treat his farm as a factory in town is treated.

I wish to get into touch with farmers throughout this region as to the time and place for meetings. I will be at the Ganges Sheep Show on June 6th. We could have a preliminary conversation there.

In fact there were more calls for his services than he could handle, and accordingly he is due to arrive again this Friday morning (May 22nd) and if you require his services please phone the Review as soon as possible as we are figuring out his route for the day. This sweep, Mr. W. Hickey, of Kingham & Gillespie Cold Co., has one of the latest vacuum machines for cleaning up fireplaces, stoves, furnaces, etc., and reports from homes he visited here last Friday indicate that he does a clean and very thorough job.

C.C.F. NOTES

This week I should like to quote once more from "Christ's Alternative to Communism" by Rev. E. Stanley Jones as follows:

"And they come to Jesus, and behold him that was possessed with devils, sitting clothed and in his right mind, even him that had the legion; and they were afraid."

"They were afraid — afraid of sanity!"

"We are like those men. We have become so naturalized in our insanities of hate and competition and unbrotherliness and injustice that we are afraid of the sanity of love and co-operation and brotherliness and justice. Could anything be more insane than the spectacle of half the world overfed and the other half underfed with enough for everyone in our very hands? And yet we are afraid of the sanity of a just distribution! Is there anything more insane than the dog-eat-dog method of competition? And yet we are afraid of the sanity of co-operation! Is there anything more insane than destroying food in a world that is hungry? And yet we are afraid of the sanity of distributing food rather than destroying it! Can anything be more

SPORTS NEWS

Activities in the local sporting field since last issue have included both softball and baseball and the games, with scores, follow:

Thursday—A friendly game was played at Sidney between Sidney and North Saanich, which ended in favor of Sidney.

Sunday at the local park an exhibition game of baseball was played when Stockers of Victoria won from Sidney 4-3.

The opening games (as far as local teams are concerned) in the Victoria and District League, B Section, were played this week.

Monday, Sidney, playing at home, won from Saanich 16-5, and on the same evening North Saanich, playing in the city won from the Navy 10-9.

The first game of "Diamond" Softball ever to be played will take place on Monday at 4 p.m. It has not definitely been arranged just what teams will have the honor of playing this first game, but it will be two of the four following: the North Saanich Service Club, Saanich, James Island and Sidney. A prize will be given the winners.

A local "Diamond" Softball League will be formed shortly and play is expected to take place on Friday evenings at Saanich, North Saanich and Sidney and on Thursday evenings at James Island if the island boys join the league, Friday night not being the best night for them. Ganges and Fulford, if they so decide, may play a series of games on Salt Spring, the winning team to be entitled to enter the play-off in the local league for the beautiful Review Cup, presented by a friend of the Review.

insane than the piling up of armaments, producing hate and fear and war? And yet we fear the sanity of a world of mutual trust and brotherhood!

The most insane thing in this insane world of ours is to be afraid of sanity!"

How true these words of Stanley Jones. Is it not time that we, a professedly intelligent and civilized people sought the remedy for this insane system of ours?

—Norman Shillito, Secretary, N.S. Sub-District Council.
